Application No. 4909

## APPLICATION FOR A PERMIT

# To Appropriate Unappropriated Waters of the State of California

## FOR MUNICIPAL PURPOSES

I, MONTAGUE IRRIGATION DISTRICT (Name of Applicant)

of Montague (Post office) County of Siskiyou

State of CALIFORNIA, do hereby make application for a permit to appropriate waters of the State of California, SUBJECT TO EXISTING RIGHTS:

a corporation, give date and place of incorporation

## SOURCE, AMOUNT AND USE APPLIED FOR

1. The source of the proposed appropriation is Little Shasta River

(Name of stream, lake or other source. If underground water is to be developed, so state)

located in Siskiyou County, tributary of Shasta River

2. The amount of water which applicant desires to appropriate under this application is as follows:

(a) For diversion to be directly applied to beneficial use without storage five (5) 2.3

(1 cubic foot per second=40 miner's inches)

cubic feet per second, to be so diverted from January 1 to December 31 of each season.

(Date)

(Date)

(b) For diversion to be stored temporarily and later applied to beneficial use

The supply to be regulated by a small reservoir. (1 acre-foot=325,851 gallons)  
acre-feet per annum, to be collected between                      and                      of each season.

(Date)

(Date)

NOTE.—Answer (a) or (b) or both (a) and (b) as may be necessary. It is important that the answers be complete and accurate. A permit can not be issued for a larger quantity than as described therein.

3. The use to which the water is to be applied is Industrial and domestic including irrigation of gardens, lawns, etc.

4. The point of diversion is to be located N. 85°, 25' E., 1735 feet from the  
on the south boundary of Sec. 26, T. 45 N. R. 5W, M.D.B.                       
(Give distance and bearing to section corner)

being within the S. E. 1/4 of S. E. 1/4

(Give smallest legal subdivision not to exceed 40 acres)

of Sec. 26 Tp. 45 N. R. 5W M.D.B., in the county of Siskiyou

5. The Carrier (Main Canal and laterals) to be 10 miles in length, terminating in the

(Main ditch, canal or pipe line)

small reservoir in the S. W. 1/4 of S. W. 1/4 and the S. E. 1/4 of S. W. 1/4 Sec. 23

(Smallest legal subdivision)

Tp. 45 N. R. 6 W. M.D.B., the proposed location being shown throughout on the accompanying map.

6. The name of the ditch, canal or other works, if named, is to be Main Canal of the Montague Irrigation District, thence into Lateral C, thence into Montague Lateral

## DESCRIPTION OF PROPOSED WORKS

## Diversion Works—

7. (a) Diversion by gravity:

(1) Height of dam                      feet; length on top                      feet; length at bottom

                     feet; material to be used and character of construction                     

(Loose rock, concrete, masonry, rock and

brush, timber crib, etc., wasteway over or around dam)

Little Shasta River will be carried over the main canal in a flume, in the

side of which a gate will be constructed to divert the water into the canal.

(2) Description of headgate                     

(Timber, concrete, etc.,

number and size of openings)

(b) Diversion by pumping plant: Type of pumps                     

(Centrifugal, plunger, screw, etc.)

; number of pumps

; size of each                     

; capacity of each                     

                     cubic feet per second; total capacity of plant                     

                     cubic feet per second; total pumping

lift                      feet; source of power                     

(Electric motor, gasoline engine, etc.)

; capacity of power

installation                      horsepower.

NOTE.—In case of insufficient space for answers in form attach extra sheets.

JUL 21 1926

Conduit System—(Main conduits only)

8. Give dimensions, length, grade (feet fall per 1000 feet length) and character of construction of diversion conduit.

10. feet; depth of water 4.3 feet; length 18,700 feet; grade 0.45 feet per 1000 feet; materials of construction Earth (Earth, rock, timber, etc.)

Remainder of the ten miles by irrigation laterals.

(b) Pipe line: Diameter inches; length feet; kind feet; kind

(Riveted steel, cement, wood-stave, etc.)  
NOTE: If a combination of different sizes or kinds of conduits is to be used, attach extra sheets with complete description, and show location of each on map.

Storage Reservoir— For regulation only.

9. The capacity of the reservoir will be 30 acre-feet.

10. The location of the reservoir will be in

located at terminus of feeder lateral

as described in paragraph 5

11. The dam will be located in

Sec. Tp. R. M. It will be feet

in height; length on top feet; length on bottom feet; width on top feet

slope of front or water face (Feet horizontal to 1 vertical); slope on back (Feet horizontal to 1 vertical)

feet

of dam and the materials of which it is to be built

Cost— (Not including main canal and laterals) (which are part of the system of the )

13. Estimated cost of proposed works, \$8000 (Montague Irrigation District)

### APPLICATION OF WATER TO USE

14. Construction work will begin on or before July, 1926

15. Construction work will be completed on or before July, 1928

16. The water will be completely applied to the proposed use on or before January, 1930

17. To supply the city of Montague Siskiyou County

having a present population of 400

18. State below the estimated average daily consumption during the maximum month of use at the end of each five-

year period until use is completed

1930 — 30000 gpm

1935 — 60000

1940 — 90000

1945 — 120000

1950 — 150000

Jan. 5/1/26.

GENERAL

19. Are the maps as required by the Rules and Regulations filed with application? Yes ----- If not, state (Yes or no) specifically the time required for filing same -----

20. Does the applicant own the land at the proposed point of diversion? No ----- If not, state what steps (Yes or no) have been taken to secure access thereto. Rights-of-way for main canal and laterals of the Montague Irrigation District will provide for this. Agreements for acquiring such rights-of-way are being made by the district. (See rules and regulations for requirements as to right of access)

21. What is the name of the post office most used by those living near the proposed point of diversion? -----

Montague, California -----

22. What are the names and addresses of claimants of water from the source of supply below the proposed point of diversion? -----

Mrs. Mary Prather ----- Montague, California -----

Mrs. Minnie A. Tamisiea ----- " -----

George Haight ----- " -----

J. F. Long ----- " -----

Leslie Calahan ----- " -----

Mrs. Edward O'Connor ----- " -----

23. It is understood and agreed that this application and the permit and license which may be granted hereunder shall be subject to all the conditions set forth in Section 20 of the Water Commission Act (Statutes 1913, Chapter 586), which is as follows:

SEC. 20. All permits and licenses for the appropriation of water shall be under the terms and conditions of this act, and shall be effective for such time as the water actually appropriated under such permits and licenses shall actually be used for the useful and beneficial purpose for which said water was appropriated, but no longer; and every such permit or license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this section and likewise the statement that any appropriator of water, to whom said permit or license may be issued, shall take the same subject to such conditions as therein expressed; provided, that if, at any time after the expiration of twenty years after the granting of a license, the state, or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the state shall have the right to purchase the works and property occupied and used under said license and the works built or constructed for the enjoyment of the rights granted under said license; and in the event that the said state, city, city and county, municipal water district, irrigation district, lighting district or political subdivision of the state so desiring to purchase and the said owner of said works and property can not agree upon said purchase price, said price shall be determined in such manner as is now or may hereafter be determined in eminent domain proceedings. If it shall appear to the state water commission at any time after a permit or license is issued as in this act provided that the permittee or licensee, or the heirs, successors or assigns of said permittee or licensee, has not put the water granted under said permit or license to the useful or beneficial purpose for which the permit or license was granted, or that the permittee or licensee, or the heirs, successors or assigns of said permittee or licensee, has failed to observe any of the terms and conditions in the permit or license as issued, then and in that case the said commission, after due notice to the permittee, licensee, or the heirs, successors or assigns of such permittee or licensee, and a hearing thereon, may revoke said permit or license, and declare the water to be unappropriated and open to further appropriation in accordance with the terms of this act. And the findings and declaration of said commission shall be deemed to be prima facie correct until modified or set aside by a court of competent jurisdiction; provided, that any action brought so to modify or set aside such finding or declaration must be commenced within thirty days after the service of notice of said revocation on said permittee or licensee, his heirs, successors or assigns. And every licensee or permittee under the provisions of this act if he accepts such permit or license shall accept the same under the conditions precedent that no value whatsoever in excess of the actual amount paid to the state therefor shall at any time be assigned to or claimed for any permit or license granted or issued under the provisions of this act, or for any rights granted or acquired under the provisions of this act, in respect to the regulations by any competent public authority of the services or the price of the services to be rendered by any permittee or licensee, his heirs, successors or assigns or by the holder of any rights granted or acquired under the provisions of this act, or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the state or any city, city and county, municipal water district, irrigation district, lighting district or any political subdivision of the state, of the rights and property of any permittee or licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this act. The application for a permit by municipalities for the use of water for said municipalities or the inhabitants thereof for domestic purposes shall be considered first in right, irrespective of whether they are first in time; provided, however, that such application for a permit or the granting thereafter of permission to any municipality to appropriate waters, shall not authorize the appropriation of any water for other than municipal purposes; and providing, further, that where permission to appropriate is granted by the state water commission to any municipality for any quantity of water in excess of the existing municipal needs therefor, that pending the application of the entire appropriation permitted, the state water commission shall have the power to issue permits for the temporary appropriation of the excess of such permitted appropriation over and above the quantity being applied from time to time by such municipality; and providing, further, that in lieu of the granting of such temporary permits for appropriation, the state water commission may authorize such municipality to become as to such surplus a public utility, subject to the jurisdiction and control of the railroad commission of the State of California for such period or periods from and after the date of the issuance of such permission to appropriate, as may be allowed for the application to municipal uses of the entire appropriation permitted; and provided, further, that when such municipality shall desire to use the additional water granted in its said application it may so do upon making just compensation for the facilities for taking, conveying and storing such additional water rendered valueless for said purposes, to the person, firm or corporation which constructed said facilities for the temporary use of said excess waters, and which compensation shall be determined by the municipality and said person, firm or corporation, may be determined in the manner provided by law for determining the value of such facilities and the compensation therefor.

(Electric motor, gasoline engine, etc.)

NOTE.—In case of insufficient space for answers in form attach extra sheets.

JUL 22 1926

Conduit System—(Main conduits only)

8. Give dimensions, length, grade (feet fall per 1000 feet length) and character of construction of diversion conduit.

Main Canal

(a) Canal, ditch, flume: Width on top (at water line) 23 feet; width on bottom 10 feet; depth of water 4.3 feet; length 18,700 feet; grade 0.45 feet per 1000 feet; materials of construction Earth (Earth, rock, timber, etc.)

Remainder of the ten miles by irrigation laterals.

(b) Pipe line: Diameter inches; length feet;

grade feet per 1000 feet; total fall from intake to outlet feet; kind

(Riveted steel, cement, wood-stave, etc.)

Note: If a combination of different sizes or kinds of conduits is to be used, attach extra sheets with complete description, and indicate location clearly on map.

Storage Reservoir— For regulation only.

9. The capacity of the reservoir will be 30 acre-feet.

10. The location of the reservoir will be in (Give 40-acre subdivisions)

Located at terminus of feeder lateral

as described in paragraph 5

11. The dam will be located in (40-acre subdivisions)

Sec. Tp. R. M. It will be feet

in height; length on top feet; length on bottom feet; width on top

feet; slope of front or water face (Feet horizontal to 1 vertical); slope on back (Feet horizontal to 1 vertical)

height of dam above water line when full feet.

12. Character of construction of dam and the materials of which it is to be built

Cost— (Not including main canal and laterals )  
(which are part of the system of the )  
13. Estimated cost of proposed works, \$ 8000 (Montague Irrigation District )

APPLICATION OF WATER TO USE

14. Construction work will begin on or before July, 1926

15. Construction work will be completed on or before July, 1928

16. The water will be completely applied to the proposed use on or before January, 1929 1950

17. To supply the city of Montague Siskiyou County

having a present population of 400

18. State below the estimated average daily consumption during the maximum month of use at the end of each five-year period until use is completed.

10 acre-feet 1930 — 300000 gpd

gals. 574146

GENERAL

19. Are the maps as required by the Rules and Regulations filed with application? Yes If not, state (Yes or no) specifically the time required for filing same

20. Does the applicant own the land at the proposed point of diversion? No If not, state what steps (Yes or no) have been taken to secure access thereto Rights-of-way for main canal and laterals of the Montague Irrigation District will provide for this. Agreements for acquiring such rights-of-way are being made by the district. (See rules and regulations for requirements as to right of access)

21. What is the name of the post office most used by those living near the proposed point of diversion? Montague, California

22. What are the names and addresses of claimants of water from the source of supply below the proposed point of diversion?

<u>Mrs. Mary Prather</u>	<u>Montague, California</u>
<u>Mrs. Minnie A. Tamisiea</u>	<u>" "</u>
<u>George Haight</u>	<u>" "</u>
<u>J. F. Long</u>	<u>" "</u>
<u>Leslie Calahan</u>	<u>" "</u>
<u>Mrs. Edward O'Connor</u>	<u>" "</u>

3. It is understood and agreed that this application and the permit and license which may be granted hereunder shall be subject to all the conditions set forth in Section 20 of the Water Commission Act (Statutes 1913, Chapter 586), which is as follows:

SEC. 20. All permits and licenses for the appropriation of water shall be under the terms and conditions of this act, and shall be effective for such time as the water actually appropriated under such permits and licenses shall actually be used for the useful and beneficial purpose for which said water was appropriated, but no longer; and every such permit or license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this section and likewise the statement that any appropriator of water, to whom said permit or license may be issued, shall take the same subject to such conditions as therein expressed; provided, that if, at any time after the expiration of twenty years after the granting of a license, the state, or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the state shall have the right to purchase the works and property occupied and used under said license and the works built or constructed for the enjoyment of the rights granted under said license; and in the event that the said state, city, city and county, municipal water district, irrigation district, lighting district or political subdivision of the state so desiring to purchase and the said owner of said works and property can not agree upon said purchase price, said price shall be determined in such manner as is now or may hereafter be determined in eminent domain proceedings. If it shall appear to the state water commission at any time after a permit or license is issued as in this act provided that the permittee or licensee, or the heirs, successors or assigns of said permittee or licensee, has not put the water granted under said permit or license to the useful or beneficial purpose for which the permit or license was granted, or that the permittee or licensee, or the heirs, successors or assigns of said permittee or licensee, has ceased to put said water to such useful or beneficial purpose, or that the permittee or licensee, or the heirs, successors or assigns of said permittee or licensee has failed to observe any of the terms and conditions in the permit or license as issued, then and in that case the said commission, after due notice to the permittee, licensee, or the heirs, successors or assigns of such permittee or licensee, and a hearing thereon, may revoke said permit or license, and declare the water to be unappropriated and open to further appropriation in accordance with the terms of this act. And the findings and declaration of said commission shall be deemed to be prima facie correct until modified or set aside by a court of competent jurisdiction; provided, that any action brought so to modify or set aside such finding or declaration must be commenced within thirty days after the service of notice of said revocation on said permittee or licensee, his heirs, successors or assigns. And every licensee or permittee under the provisions of this act if he accepts such permit or license shall accept the same under the conditions precedent that no value whatsoever in excess of the actual amount paid to the state therefor shall at any time be assigned to or claimed for any permit or license granted or issued under the provisions of this act, or for any rights granted or acquired under the provisions of this act, in respect to the regulations by any competent public authority of the services or the price of the services to be rendered by any permittee or licensee, his heirs, successors or assigns or by the holder of any rights granted or acquired under the provisions of this act, or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the state or any city, city and county, municipal water district, irrigation district, lighting district or any political subdivision of the state, of the rights and property of any permittee or licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this act. The application for a permit by municipalities for the use of water for said municipalities or the inhabitants thereof for domestic purposes shall be considered first in right, irrespective of whether they are first in time; provided, however, that such application for a permit or the granting thereafter of permission to any municipality to appropriate waters, shall not authorize the appropriation of any water for other than municipal purposes; and providing, further, that where permission to appropriate is granted by the state water commission to any municipality for any quantity of water in excess of the existing municipal needs therefor, that pending the application of the entire appropriation permitted, the state water commission shall have the power to issue permits for the temporary appropriation of the excess of such permitted appropriation over and above the quantity being applied from time to time by such municipality; and providing, further, that in lieu of the granting of such temporary permits for appropriation, the state water commission may authorize such municipality to become as to such surplus a public utility, subject to the jurisdiction and control of the railroad commission of the State of California for such period or periods from and after the date of the issuance of such permission to appropriate, as may be allowed for the application to municipal uses of the entire appropriation permitted; and provided, further, that when such municipality shall desire to use the additional water granted in its said application it may so do upon making just compensation for the facilities for taking, conveying and storing such additional water rendered valueless for said purposes, to the person, firm or corporation which constructed said facilities for the temporary use of said excess waters, and which compensation shall be determined between the municipality and said person, firm or corporation, may be determined in the manner provided by law for determining the value of such facilities and the compensation therefor in eminent domain proceedings.
